1   Overview

The OMA Mobile E-mail SWG of the Messaging WG wishes to inform the IETF LEMONADE WG of:

- Evolution of the mobile e-mail requirement document

- Initiation of the next phases:
  - Architecture design of the OMA Mobile e-mail enabler
  - Technical analysis of available technology
  - Enabler technical specifications, as needed, based on appropriate technologies identified at the previous stage.

- Plans to hold an interim meeting of the OMA Mobile E-mail SWG of the Messaging WG in Paris in conjunction with the IETF LEMONADE meetings.

2   Proposal

2.1   Requirement document

OMA-RD-MobileEmail-V1_0-20050614-D is the latest version of the OMA mobile e-mail requirement document. It is currently in formal review. Please note that this document is not yet final or approved. It may still evolve based on comments received during formal review and approval.

---

[1] If the "Confidential LS" box is selected, this liaison statement is intended to be Confidential per agreement by OMA and the addressed organization. Neither side should make this communication available to non-members.

2.2 Next phases

The sub-working group has started work on the architecture for the mobile e-mail enabler. This is captured in an evolving mobile e-mail architecture document available on the public site at http://www.openmobilealliance.org/ftp/Public_documents/MWG/MEM/permanent_documents/. The accompanying technical report initiated by the sub-working group identifies and analyzes relevant supporting technologies.

The work has only started on these documents. They should not be considered as stable. The latest versions of both documents will always be available on the OME MEM public web site (permanent document directory) at the URL provided above.

IETF LEMONADE has already been identified as developing such a relevant technology and some of the OMA technical specifications may rely or have dependencies on the work being done there.

2.3 Interim meeting

The OMA Mobile E-mail SWG will hold an interim meeting in Paris in conjunction with the IETF LEMONADE meeting.

The meeting will take place 8-9 Aug, 2005 in Paris.

3   Requested Action(s)

We request that the IETF LEMONADE Working Group:

- Considers the OMA Mobile E-mail RD as input from the mobile community in terms of requirements for mobile e-mail features that may affect the LEMONADE activities.

- Provides feedback on the possible relevance of LEMONADE work

- Provides its view on preferred potential collaboration in order to support one realization the OMA mobile e-mail enabler, if LEMONADE WG considers its activities relevant to the OMA mobile e-mail enabler requirements..

- Encourages its participants who work for OMA member companies to accept the invitation to attend the OMA Mobile E-mail SWG interim meeting

4   Conclusion

The OMA Mobile E-mail Sub-Working Group wishes to thank the IETF LEMONADE WG for considering reviewing and commenting on the Mobile E-mail RD and next steps and considering participation to the interim meeting.

Furthermore the OMA Mobile E-mail Sub-Working Group looks forward to an on-going dialogue and cooperation on these matters with the IETF LEMONADE WG.

Finally the OMA Mobile E-mail Sub-Working Group wishes to thank the IETF LEMONADE WG for its kind consideration of this liaison.
