1 Overview

The IETF LEMONADE WG responded to the liaison initiated by OMA MEM SWG. This response is available as document OMA-MEM-2005-0020-ILS-regarding-MWG-MEM-RD.

The present liaison is in response to OMA-MEM-2005-0020-ILS-regarding-MWG-MEM-RD.

2 Proposal

The IETF LEMONADE liaison response OMA-MEM-2005-0020-ILS-regarding-MWG-MEM-RD was presented to OMA MWG-MEM at the interim meeting held in Paris on August 8 and 9, 2005, including the detailed answer and analysis of the mobile email enabler RD draft that was provided to the LEMONADE WG.

In the meanwhile OMA MWG-MEM wishes to inform the IETF LEMONADE WG that it is interested in ongoing collaboration with IETF LEMONADE and to hold a joint workshop with the IETF LEMONADE WG.

OMA MWG-MEM will hold its next interim meeting on September 26 and 27 at the GSMA HQ, in Central London, so that a joint workshop could be arranged in London on Wednesday September 28, 2005 prior to the IETF LEMONADE interim face to face meeting. Details on the workshop will be distributed to OMA MEM and IETF LEMONADE separately.

Details on the OMA MWG-MEM interim meeting, open only to OMA members, are available in document OMA-MEM-2005-0030R01-Interim-Meeting-London-26-27-September.

OMA MWG-MEM intends to provide detailed updates of the Mobile e-mail enabler related activities, including disposition of the comments received from LEMONADE. It will also provide answers to questions contained in the detailed analysis. We believe that the joint workshop will provide an ideal environment to start such a dialogue and provide initial answers.
